

Party Helium Filling Capabilities

These tables list the *maximum* number of balloons you will be able to fill with each size of cylinder.

Latex Balloons

	Small	Large & A La Carte
9" (23cm) latex balloons	30	50
10" (25cm) latex balloons	26	45
12" (30cm) latex balloons	15	25
18" (46cm) foil balloons	14	24

Weights, heights and volume of cylinders

	Small	Large & A La Carte
Weight (kg)	3.9	5.3
Height (mm)	430	450
Volume (m ³)	0.25	0.42

These filling capability figures are guidelines only based on the manufacturers maximum figures. When choosing which size cylinder you require, please allow for helium loss through over-inflation, bursts and user wastage. Please note that if used incorrectly filling capabilities can reduce **dramatically** to less than half the figures stated.
