

## Helium Cylinders for Hire Filling Capabilities

These tables list the *maximum* number of balloons you will be able to fill with each size of cylinder.

### Latex Balloons

|                           | N10 | N20 | N30 |
|---------------------------|-----|-----|-----|
| 10" (25cm) latex balloons | 290 | 575 | 860 |
| 12" (30cm) latex balloons | 165 | 330 | 495 |
| 16" (41cm) latex balloons | 60  | 120 | 180 |
| 24" (61cm) latex balloons | 18  | 35  | 55  |
| 30" (76cm) latex balloons | 11  | 23  | 34  |
| 36" (91cm) latex balloons | 6   | 12  | 18  |

### Giant Chloroprene Balloons

|                                  | N10 | N20 | N30 |
|----------------------------------|-----|-----|-----|
| 4' (1.2m) chloroprene balloons   | 2   | 4   | 6   |
| 5.5' (1.7m) chloroprene balloons | 1   | 2   | 3   |
| 8' (2.4m) chloroprene balloons   | 0.3 | 0.7 | 1   |

### Foil Balloons

|                                | N10 | N20 | N30 |
|--------------------------------|-----|-----|-----|
| 18" (46cm) round foil balloons | 180 | 360 | 535 |
| 36" (91cm) round foil balloons | 20  | 40  | 60  |
| 18" (46cm) heart foil balloons | 170 | 342 | 515 |
| 36" (91cm) heart foil balloons | 22  | 44  | 65  |
| 20" (51cm) star foil balloons  | 160 | 321 | 483 |
| 36" (91cm) star foil balloons  | 35  | 70  | 116 |

### Weights, heights and volume of cylinders

|                          | N10  | N20  | N30  |
|--------------------------|------|------|------|
| Weight (kg)              | 12   | 25   | 49   |
| Height (mm)              | 655  | 870  | 1050 |
| Volume (m <sup>3</sup> ) | 2.61 | 5.21 | 7.82 |

These filling capability figures are guidelines only based on the manufacturers maximum figures. When choosing which size cylinder you require, please allow for helium loss through over-inflation, bursts and user wastage. Please note that if used incorrectly filling capabilities can reduce **dramatically** to less than half the figures stated.
